- advising you in relation to the nature of each of the products set out below and advising you as to which products are most suitable for your needs;
- identifying and selecting suitable product producers;
- receiving and transmitting orders on your behalf to one or more product producers – a list of product producers with which we hold an agency is available on request or via our website.

We provide advice on a fair and personal analysis basis (which means we give advice based on a sufficiently large number of insurance and/or other contracts available on the market to enable us to make a recommendation, in accordance with professional criteria, as to which contract adequately meets your needs) on insurance policies, unit trust type investments, tracker bonds, shares or bonds listed on a stock exchange, and personal retirement savings accounts. instruments, unit trusts and trackers bonds. The product providers with which we currently hold agencies are Blackbee Investments, BCP Asset Management, Cantor Fitzgerald, Davy Stockbrokers, Investec Bank, KBC Bank Ireland and Merrion Stockbrokers. We do not conduct periodic suitability assessments of investment-based insurance policies or financial instruments on an ongoing basis, unless instigated at your request.

We also provide advice on health insurance. Irish Life Health pays us commission (details available on request) for the direct placement of business with them – the other providers do not. Irrespective, all advice on health insurance is provided on a fair analysis basis. Where we are not paid commission by the provider, we invoice clients for our advice by way of fee.

Where Acumen & Trust DAC believes it is necessary to instruct another professional to provide advice outside the scope of our services, we will inform the client and seek consent prior to instruction such a professional on its behalf. The client shall be responsible for the fees for such additional services.

Investment risk - Important notice

Most forms of investment involve some level of risk. The past performance of investments is not a reliable guide to future performance. As a result, you need to be aware that the value of your investment may go down as well as up and you may get back less than you put in. You should not make an investment unless you have satisfied yourself that you understand the nature of the investments under consideration and the extent of your exposure. If you are in any doubt you should obtain additional independent professional advice.

How Acumen & Trust approaches the integration of sustainability risks into the advice we give you

As per Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (“SFDR”).

If we refer to ‘sustainability risk’, we are referring to the environmental, social or governance (ESG) event or condition that could cause an actual or a potential negative impact on the value of a product we recommend to you. Acumen & Trust does not currently take specific account of sustainability risks in its advice process. How we include sustainability factors in our advice process will develop over time. This will be largely driven by the products and investment funds available and how these products factor in sustainability risks.

However, as part of our research and assessment of products, Acumen & Trust examines the Product Providers’ literature to compare financial products and to make informed decisions about ESG products. Acumen & Trust will at all times act in the client’s best interests and keep clients informed accordingly. The consideration of sustainability risks can impact on the returns of financial products.

Fees

Depending on your requirements and the services you require, Acumen & Trust DAC may charge a fee for our services. If you elect to pay by way of fee, we will agree the fee basis with you in writing prior to providing you with a service. Our fee basis will be on a time-spent basis at rates determined by the nature and complexity of the relevant work and the seniority of our personnel required. Where we are engaged to provide advice and this does not result in product placement or we do not receive commission from a

product provider we will charge you a fee on the basis set out at commencement of the engagement. Commissions which we receive will not be offset against any fees due to us unless agreed in writing.

Acumen & Trust DAC will, if necessary, exercise its legal rights to receive any payments due to it from clients for business services provided by it and, to be reimbursed for any value obtained by the firm for clients arising from payments by the firm on behalf of clients who subsequently default in any payment due to the firm.

Product producers may withdraw benefits or cover on default of any payments due under any products arranged for your benefit. Details of these provisions will be included in your product terms and conditions.

Complaints

Any complaint that you may have in relation to the business services provided should be made in writing to us outlining the nature of your complaint. Any such complaint will be acknowledged within 5 business days. The complaint will be fully investigated by Acumen & Trust DAC and a full response will be provided. We aim to provide this response not later than 20 days from receipt of your complaint. In the event that you remain dissatisfied with the firms handling and response to your complaint you are entitled to refer your complaint to the Financial Services & Pensions Ombudsman, Lincoln House, Lincoln Place, Dublin 2 (01 567 7000).

Investor Compensation Scheme

Acumen & Trust DAC is a member of the Investor Compensation Scheme, which provides certain remedies to eligible clients on default by the firm. Occupational pension schemes and larger corporate entities are specifically excluded from entitlement from the Investor Compensation Scheme. The main details of the operation and conditions of the Scheme are as follows:

1. Compensation may be payable where money or investment instruments owed or belonging to clients and held, or in the case of investment instruments, administered or managed by our firm cannot be returned to those clients for the time being and there is no reasonably foreseeable opportunity of the firm being able to do so;
2. A right to compensation will arise only:
 - a) if the client is an eligible investor as defined in the Act;
 - b) if it transpires that our firm is not in a position to return client money or investment instruments owned or belonging to the clients of the firm; and
 - c) to the extent that the client's loss is recognised for the purposes of the Act:
3. Where an entitlement to compensation is established, the compensation payable will be the lesser of
 - a) 90 per cent of the amount of the client's loss which is recognised for the purposes of the Investor Compensation Act, 1988; or
 - b) compensation of up to €20,000.

Your legal rights against the firm are not affected by this scheme.

Your Responsibilities under the Consumer Insurance Contracts Act 2019

The Consumer Insurance Contract Act 2019 imposed the following responsibilities to consumers, in order to strengthen their rights and increase transparency:

(i) New Business & Renewal

You may cancel a contract of insurance, by giving notice in writing to the insurer within 14 days after the date you were informed that the contract is concluded. The insurer cannot impose any costs on you other than the cost of the premium for the period of cover. This does not affect notice periods already in place, i.e. 30 days in respect of life policies.

You are under a duty to pay your premium within a reasonable time, or otherwise in accordance with the terms of the contract of insurance.

A court of competent jurisdiction can reduce the pay-out to you where you are in breach of your duties under the Act, in proportion to the breach involved.

(ii) Post – Contract Stage and Claims

An insurer may refuse a claim made by a consumer under a contract of insurance where there is a change in the risk insured, including as described in an “alteration of risk” clause, and the circumstances have so changed that it has effectively changed the risk to one which the insurer has not agreed to cover.

Any clause in a contract of insurance that refers to a “material change” will be interpreted as being a change that takes the risk outside what was in the reasonable contemplation of the contracting parties when the contract was concluded.

You must cooperate with the insurer in an investigation of insured events including responding to reasonable requests for information in an honest and reasonably careful manner and must notify the insurer of the occurrence of an insured event in a reasonable time.

You must notify the insurer of a claim within a reasonable time, or otherwise in accordance with the terms of the contract of insurance.

If you become aware after a claim is made of information that would either support or prejudice the claim, you are under a duty to disclose it. The insurer is under the same duty.

If you make a false or misleading claim in any material respect (and know it to be false or misleading or consciously disregard whether it is) the insurer is entitled to refuse to pay and to terminate the contract.

Where an insurer becomes aware that a consumer has made a fraudulent claim, they must notify the consumer advising that they are voiding the contract of insurance. It will be treated as being terminated from the date of the submission of the fraudulent claim. The insurer may refuse all liability in respect of any claim made after the date of the fraudulent act, and the insurer is under no obligation to return any of the premiums paid under the contract.
